CS95 Series DN125 (5") Flange Adapter

GENERAL

The DN125 (5") suction flange adapter, provided with the larger CS95 series screw compressors, is not provided with machined surfaces. The current flange is ready for a 5" butt weld for steel pipe.

This notice provides the dimensions required for machining the flange to accept Type K rigid copper pipe.

Affected Model Numbers:

- CSW9583, 9593, 95103, 95113
- CSH9583, 9593, 95103, 95113

DN125 suction flange adapter

The installed flange adapter has an internal diameter of 5.118" (130mm).

Type K rigid copper pipe has an outside diameter of 5.125".

The flange adapter can be machined to an inside diameter of 5.135" to allow brazing of Type K copper pipe.
